## Coinbase Recruitment Team

May 23, 2017

COINBASE

To Whom it May Concern,

### About Me

---

Hi, my name is Ernest Wong- I'm currently a fourth year Computer Engineering student at the University of Waterloo. I'm applying for my final internship before graduation and would love to work at Coinbase. Previously, I've worked at Coursera, PagerDuty, and Inkling- I'm really passionate about software engineering and solving cool technical problems.

### Why Coinbase?

---

I've heard about Coinbase from a close friend who had interned here before and he said many great things about it. I'm also a strong believer in Bitcoin and would love to have the opportunity to make a contribution to the cause- I believe joining Coinbase would be the best way for me to make an impact. I'd love to work on interesting things at Coinbase and learn more about Bitcoin.

Sincerely,

**Ernest Wong**
